Q6 - Strengths. What went well at the NE TN STEM Innovation Hub regional meeting and/or your breakout session?

Strengths. What went well at the NE TN STEM Innovation Hub regional meeting and/or your breakout session?

The networking was phenomenal! I now have access to resources that I hadn't heard of before this meeting.

Hannah was great and led a very informative and hands on session

Meeting new folks; establishing new contacts

I very much enjoyed learning about the teacher company, partnerships, and the types of projects the students did as well as the roles that the company employees played.

I loved to see what others had been working on and learn about the partnerships with the companies.

I

Time to play

The presentations on partnerships was great, can't wait to join!

Breakout tracks were great and speakers were very informative.

The teacher/industry presentations were amazing!

Learned enough to take back WBL to my employer.

There was a lot of information, so many useful resources.

Good information about WBL.

Presentations were great. Hearing others share.

Loved the informational tables. I learned a out so many resources.

I love the people I met and the information I received while in this program.

There were a variety of ideas presented from a range of professionals.

Break session was applicable to my class. Good was good.

I enjoyed the presenters!

Just partnering with us. I don't want to make a cold call to an industry

It was very informative as I move into the CTE position at our school.

Q7 - Changes. What are suggestions for improvement for the NE TN STEM Innovation Hub regional meetings and/or specific breakout sessions?

Changes. What are suggestions for improvement for the NE TN STEM Innovation Hub regional meetings and/or specific breakout sessions?

Have more interaction opportunities with STEM products during arrival time, and possibly breakout sessions.

None

More seats in dining area.
More time for social interaction.

Maybe encourage each company to set up a table during the networking time?

would love to see more tables about different classroom kits and robotics/science kits.

More seats

Na

None

The room for the welcome and food was super packed with not enough seats, but otherwise great!

Well (obviously) better projector!

Stem kits for all attendees.

I feel like high school is being left out of the business partnerhips.

None

Great job. I can not think of any improvements.

Connection made with business partners. My business partner was unavailable for my project part.

NA

Seating by group - educators /partners and then connect with someone from another group.

I think everything was great!

I think everything is great.

I do not have any.

Q3 - Future Directions (optional). Ideas/preferences/thoughts about future vision of CESE and the NE TN STEM Innovation Hub (e.g., new initiatives we could start; great programs you would like to see continue; topics you would like to see for future NE TN STEM Innovation Hub meetings).

Future Directions (optional). Ideas/preferences/thoughts about future vision of CESE and the NE TN STEM Innovation Hub (e.g., new initiatives we could start; great programs you would like to see continue; topics you would like to see for future NE TN STEM Innovation Hub meetings).

You had so many amazing success stories from year one of teacher company partnerships!! This was very informative, and I appreciate the opportunity to attend! I look forward to seeing what all will do in year two!

Consolidate the feedback surveys

Inclusion of students with disabilities, specifically hidden disabilities

I hope it continues so I can swap tracks and visit with early education innovators.

STEM guidance for elementary teachers: vision

It was perfect

I'd like to see a giveaway of conference admission

Oh, see above.

I want to be one more involved

Q8 - Any other comments

Any other comments

Fell out of the NET STEM Hub community a number of years ago. Great to see the depth and breadth of interest in the STEM/STEAM education in the region.

Thank you!!!!

This was my first meeting. I did not realize all of the resources and local organizations that are available to help teachers.

Thank you!

This is a great meeting. Well done.
